PERSONAL STATEMENT

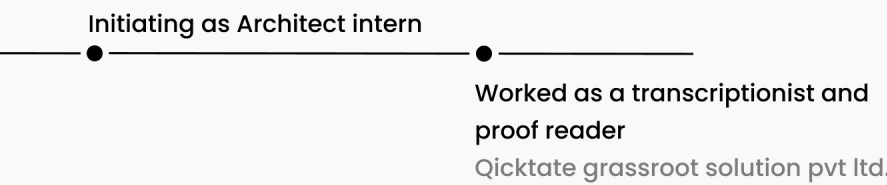

I am a passionate 23-year-old architect with a diverse range of skills and a strong background in music, content writing, design, and telecommunication. While I may not have formal work experience in the field, I bring a unique blend of creativity, technical aptitude, and a drive for excellence to every project I undertake.

My architectural journey has equipped me with a solid foundation in design principles, space planning, and construction documentation. Through my academic pursuits, I have developed proficiency in architectural software such as AutoCAD, SketchUp, and Revit. I am enthusiastic about exploring innovative and sustainable design solutions that can shape the built environment.
